POULTRY SHEDS

PRODUCT DESCRIPTION

Zen Poultry Sheds are designed to offer the best solutions to poultry farmers in terms of innovative, economical, flexible and optimally designed structures which can be customized to farmer requirements that cuts across the spectrum, from small scale startup farmers to large scale commercial farms.

OCCUPANCY:

With a recommended occupancy of 16No. birds/m² for caged birds and 4No. birds/m² enclosed roaming birds, Zen Poultry Sheds come in standard modular sizes of:

- 4-6m span x 9m long x 2.4m height, suitable for small scale farmers (customized as per farmer requirement)
- 8-20m span x 15m long x 3m height, suitable for medium to large scale farmers (customized as per farmer requirement)

OPTIMALLY DESIGNED STRUCTURES:

In addition to modifying the structure size to suit the unique and diverse farmer requirements, hybrid structural systems comprising of hot rolled and light gauge steel sections are utilized to optimize the design and achieve economy of materials whilst accommodating all loads and any additional required hanging feeder equipment loads
